

Application No.: 09/418730

Case No.: 55124US002

Remarks

This amendment is in response to the Notice of Allowance dated March 17, 2005.

Upon review of the claims, it was noted that although 2.4 was disclosed as upper limit of the refractive index of the optical elements, the claimed limit was 2.1 (see for example p. 14, line 9). The applicant submits that since this amendment is being made to a dependent claim, the entry of this amendment does not necessitate any further searching or examination on the part of the Examiner. Accordingly, entry is respectfully requested.

Respectfully submitted,
